

Corporate overview

Everything is simple with the right tools

—○ Our Identity & Characteristics

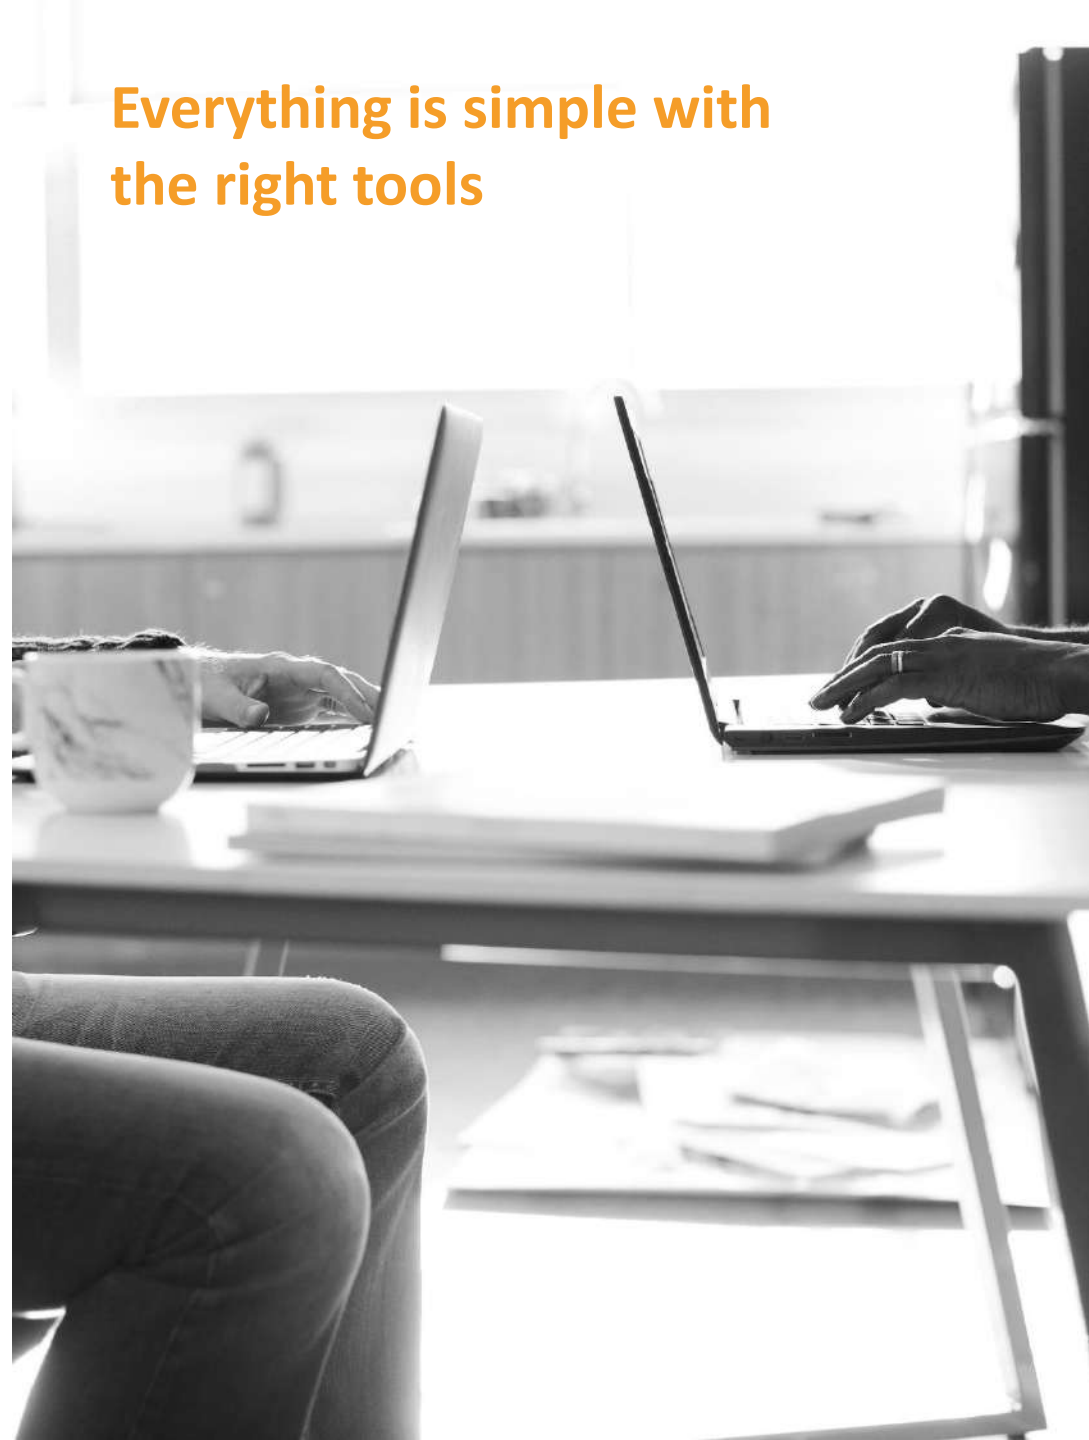

Orthology Ltd was founded in 1996 and is based in Athens.

Offering high quality software products and services, we respond to requirements of the ever growing market and the needs of today's business.

Our goal is to ensure the rational development, management and operation of on-premise and/or cloud based infrastructure.

With more than 20 years of experience in the Greek market, we are proud to have offered solutions to modern companies in all the trade sectors through collaborative projects with our official network of partners.

**Everything is simple with
the right tools**

—○ We offer business solutions software that can satisfy customer's needs, mainly in the following areas
