

Corporate overview

Making IT simple with the right team

—○ Who we are

Orthology Consulting was founded in 1996 and is based in Athens.

We are a dedicated team of specialized and certified software professionals and engineers that have been providing world-class software solutions and services tailored to the needs of Small Medium Enterprises and Large Enterprises for over 20 years.

Over the years, we have built strong relationships with global vendors who trust Orthology as their strategic partner to distribute their solutions to the Greek market.

—○ Our vision and mission

Our vision is to develop and protect the technological infrastructures of Greek companies, contributing to the increase of their produced value.

We believe in working with precision, reliability and high quality.

We want to be known as the most reliable, innovative and user-friendly service and software provider in the IT industry.

Our mission is to provide the best, certified technology solutions, so that our clients feel like they have an in-house IT department, gaining the benefits of outsourcing IT.

—○ Our values

With faith in our values, we move forward with steady steps towards our vision and mission.

- √ Integrity in every aspect of our business activities
- √ Ethical commitment to the success of our results
- √ Dedication to meeting the highest demands of our customers
- √ Persistence in seeking new opportunities
- √ Creativity in the search for new practices
- √ Consistency in complying with the legal and tax provisions that govern our operation
- √ Recognizing the importance of our human resources

—○ We offer business solutions software that can satisfy customer's needs, mainly in the following areas

- Communication
- Cybersecurity
- IT Security
- IT Service Management

Our portfolio includes Standard or Customized Services offerings, aiming at increasing productivity, reducing costs, while allowing every modern business to gain access to high quality, expert level support, for the best management of its resources.

—○ Orthology is a leading distributor of American and European vendors for more than 20 years, cultivating and adding value to strong business relationships.

MakingIT simple with the right team

- With our certified engineers, we provide services that cover the following needs:
 - Professional Services that include advisory, presales, implementation and after sales services.
 - Outsource IT Services including backup, email, security, server & desktop administration, service desk, telecoms, migration projects, project management and consulting services for small and medium-sized enterprises.
 - Training Services tailored to customer's individual needs, covering all software products and platforms that our company offers.

—○ Our Channel Partners

Over the years, we have built strong relationships with our partners/resellers, based on trust, credibility, and delivery to promise.

We are channel oriented and feel proud of ourselves on having developed a network of 190+ active resellers across Greece, Cyprus and Balkans.

Our flexible Partner Program offers sales & training tools, so as to help our partners reach their sales objectives.

—○ Our Clients

Our clients range from SMBs to large Enterprise and include banks, insurance, shipping, pharmaceutical companies, supermarkets and telecom providers.

Our Team

We are a dedicated team of specialized and experienced professionals and engineers that have been providing world-class software solutions and services, tailored to the needs of SMBs and Enterprises, for over 20 years.

Our team of certified engineers has the knowledge and expertise required to provide advice, design, implement and maintain the solutions that will best meet your requirements, no matter how advanced and complex they may be.

The dedication, professionalism and qualifications of our team, which we are proud of, ensure you that you will always get the required level of service, not only to meet your everyday needs, but even cope with your emergencies.

Thank you!
